For over a decade FancyHeat® has been the leader in the chafing dish fuel market with innovative products. We are proud once again to display our innovation with our new chafing dish fuel FancyHeat® Ethanol Green™

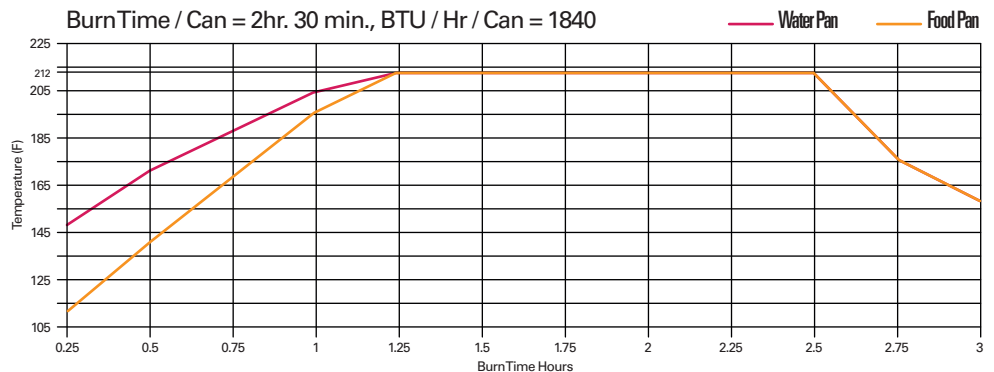

The future of our planet starts with developing products that are environmentally friendly and using less limited natural resources is imperative to the future of our World. FancyHeat® Ethanol Green™ embodies eco friendly aspects when looking at products that help improve our world.

### FancyHeat® Ethanol Green™ A Supreme Product

Synthetic Ethanol that is produced from crude based fossil fuels or natural gas, both have limited resources. Ethanol made from corn is a renewable energy resource that helps reduce our dependency on foreign oil. Corn based ethanol comes from our farmers grown in the USA. FancyHeat Green comes in steel cans and corrugated boxes that are all 100% recyclable. Our commitment to promoting recyclable products goes into all of our manufacturing processes.

ETHANOL GREEN		MADE IN THE U.S.A. 		
PRODUCT	CASE PACK	BURN TIME	CASE WEIGHT	CASE PER PALLET
